The Medesty of Women

daturally makes them shrink from the o questions, the obnoxious examinations, and unpleasant local treat-ments, which some physicians consider easential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annotance and shame for nothing. the annogance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorito Prescription write in appreciation of the cure which dispenses the the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. The rescue work proved thrilling, for not only were the rescuing parties impeded by the dark, but shouls of sharks were already attacking those clinging to pieces of wreckage in the water.

Sixty-one persons from the ill fated steamer were finally dragged into the boats and brought by the Oads to Singspore. Many of them had been bitten by sharks and several are severely injured.

BOMB-THROWING IN INDIA. Lord Minto, the viceroy of Indis, and Lady Minto had a narrow escape Saturday from being killed by bombs.

They were driving through one of the streets of Ahmedabad when, without warning, two bombs were thrown at their carriage. A sergeant of dragoons who was riding alongside, spurred for-ward, and with outstreched saber inter-cepted the first bomb, burling it some ittle distance away into a sand heap. The second bomb struck the viceroy's jemidar, a native lieutenant, who was holding an umbrella over lady Minto, and fell harmlessly to the ground.

Just prior to this, as the carriage passed through one of the atrests, a bomb exploded some little distance away. Police and others, attracted by the explosion, ran up and found a man on the ground with his hand blown off He proved to be an innocent by-

WILL QUIT WORK FOR TWO DAYS.

At its meeting to night in Washing ton the Central Labor Union will doubt less take action upon the motion carried in Philadelphia yesterday urging every union and nonunion man to quit work for two days if Samuel Gampers, Frank Morrison, and John Mitchell are sent to jail for contempt of court. The determination to quit work for two days is considered in the nature of a strike on the part of the union. In this way it is hoped to convince the country at large of the disapproval of the conviction of the officers, and at the same time, arouse by action an agitation favorable to the men. The resolution was offered before the Central Labor Union of Philadelphia yes New Citron terday by H. O Parker, of the Cigar-maker' Union. Copies of the action, with a request that it be favorably considered by labor organizations through-out the country, are to be sent to every city in the United States, and, non-union men will be saked to join with organized labor in showing disapproval of the imprisonment of the executives. It is probable the Central Labor Union of Washington will make its move con certedly with the American Federation of Labor now holding a convention in Toronto. This body has been asked to take action on the resolution of the Philadelphia labor union.
